Textbook: Mathematics for Elementary Teachers (Musser, Burger & Peterson)

Topics covered: Chapters 1-8 in the textbook

Grading: There will be 3 exams during the semester, each will count 33%. They will be given approximately every 5 weeks, with the first test occurring around the end of September or early October. The exact date will be announced at least one and a half weeks in advance. The last exam will be given during the scheduled final time for the class (as listed in the university schedule). If you must miss a test for any reason, try and let me know in advance if at all possible.

It is the student’s responsibility to regularly attend class and get any missed notes, assignments, etc. If a student wishes to drop the class they must do it themselves by the date given in the school schedule.

Several manipulative sessions will be given during the semester. Attendance and participation is expected and points may be deducted from an exam if one is missed or you leave early
